

VSWare integration guide

December 2021

VSWare MIS integration guide

A third party application used by your school uses Wonde to access school data from a number of MIS providers such as VSWare. As your school is yet to have the integration setup with Wonde the following steps need to be completed.

Integrating Wonde with VSWare:

1. To set up the connection between the approved application and your MIS, your School Headteacher will need to email support@vsware.ie with a request stating that your school gives their permission to share their data with Wonde for the purpose of syncing with the application.
2. VSWare will create the credentials for the connection and they will send these back to your Headteacher's email.
3. Please forward the details provided to support@wonde.com or give us a call on 01638 779144.
4. The Wonde team will then complete the process and confirm the connection is working successfully.
